

Paper Assignment

Math 371-A

Due Monday, January 11, 1999

This assignment consists of two parts. Paper versions should be brought to class; electronic versions (in \LaTeX) must be submitted via my web page by 8:00 AM on January 11.

Revise your previous notes on \LaTeX , using section commands as well as a `maketitle` command. Make sure to use `verbatim` and `formula` commands correctly. Include new material from Friday's tutorial.

Do not organize the sections by day, but rather by topic.
